

The February 12th 2006 SEARS Launch Report

Samson Alabama
Southeast Alabama Rocketry Society

The skies were clear. The temperature was in the low 40s. The winds were about 12 mph from the WNW .

There were 9 fliers and 29 Flights

Launch Notes

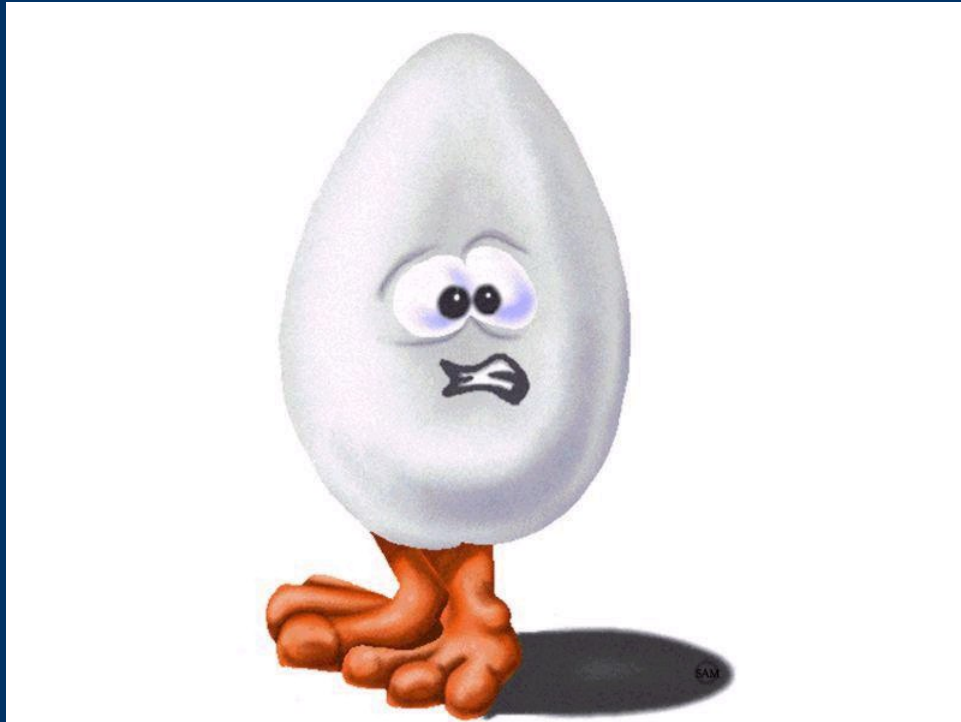

- This launch was originally scheduled for Feb 4th. Attempts on the 4th and 11th were cancelled due to winds. This launch was on Sunday 1:00 to 4:30.
 - The Egg event is delayed to the March 4th Launch.
 - Motors were collected for the Landmark Park demos. Thanks to the donations.
 - SEARS donated \$70 to the Samson TARC Team.
 - Chris Crews had several flights on the Samson TARC design.
 - We were glad to have John Keegans fly with us. He brought his upscale Gyroc
-
-

Greg Lane exercised his Applewhite 18 Inch Delta Saucer on a J315 Redline

There was time to exchange ideas between flights as you see here.

***The next SEARS
Launch is March 4th
2006 in Samson, AL
The event is Egg Head
Day. Egg flights give
you a chance to win a
draw from the prize
pool. In addition, there
will be a egg loft
duration contest for
18mm C motors.***
